

Advanced Service Network

To Our Potential Members,

The Advanced Service Network (ASN) invites you to join our network of professional Solution Providers.

If you qualify, you will join a group of highly skilled businesses with the experience needed to help each other fulfill IT projects.

Being a part of the ASN provides you with many benefits. The most important is an expanded client base. You will receive business from other members or clients who are based in other parts of the world but may not have access to a local IT provider to help their branch locations.

That's where you come in! There are a limited number of ASN members allowed per territory. We do not want to over saturate territories so claim your territory by joining the ASN.

Additional benefits include discounts from suppliers, distributors, travel and leisure companies, insurance and financial organizations, and much more.

As they say - there is strength in numbers, and the ASN is growing everyday!
Join our network now!

Thank you,

Joseph Canzonieri
Founder and President

Are you insured?

If so, how much liability insurance are you covered for?

Non-Compete Rule

I understand that I may be asked to perform work at another ASN member's client location and I will not compete with fellow members by marketing to that client in any way. By failing to abide by this rule and proven at fault, I will be immediately dropped from the ASN membership without any recourse. If this simple non-competite rule is broken, I will be held liable if any legal action is taken by the hiring ASN member. I understand ASN will not be liable for my actions in any way.
